

PRATIK KUMAR VERMAN

Aspiring DevOps Engineer

Delhi NCR, India | pratikvermann@gmail.com | linkedin.com/in/pratikkumarverman | github.com/hahapratik | v0-hahapratik.vercel.app

SUMMARY

Aspiring DevOps Engineer building a hands-on home lab around CI/CD and GitOps: automated pipelines with Jenkins and Docker, infrastructure provisioning with Terraform, and Kubernetes-native deployments with Argo CD. Comfortable operating in Linux environments end to end (Arch Linux, Bash) and building web applications with JavaScript. Currently pursuing a BCA while shipping and documenting projects publicly on GitHub.

TECHNICAL SKILLS

Containers & Orchestration: Docker, Kubernetes, Argo CD

CI/CD & GitOps: Jenkins, GitHub Actions, Git, GitHub

Cloud & Infrastructure: AWS, Azure, Terraform, Ansible

Monitoring: Prometheus

Systems & Tooling: Linux, Arch Linux, Bash, Vim

Programming Languages: Python, Java, C, C++, JavaScript, HTML5, CSS

PROJECTS

Jenkins CI Pipeline Lab — Jenkins, Python, CI

github.com/hahapratik/jenkins-demo

- Built a hands-on Jenkins continuous integration lab running automated pipelines against a Python codebase.
- Configured jobs, triggers, and multi-stage builds to practice core CI concepts from the ground up.

Jenkins CI/CD Pipeline Demo — Jenkins, Docker, Argo CD, CI/CD

github.com/hahapratik/jenkins-cicd-demo

- Built an end-to-end CI/CD pipeline taking a web application from commit to deployment.
- Wired a declarative Jenkinsfile into a Jenkins + Docker workflow, and integrated Argo CD for GitOps-style, Kubernetes-native deployment.

GitHub Actions CI/CD Automation — GitHub Actions, YAML, CI/CD

github.com/hahapratik/Github-Actions

- Implemented automated YAML-based pipelines with GitHub Actions to build, test, and deliver code directly within GitHub.

Blog Web Application (BLOG-AWORLD-) — JavaScript, HTML, CSS

github.com/hahapratik/BLOG-AWORLD-

- Built and shipped a JavaScript-powered blog web application front to back.

Personal Developer Portfolio — Next.js, Vercel

v0-hahapratik.vercel.app

- Designed and built a terminal-themed portfolio site with a boot-sequence animation, live GitHub contribution feed, and categorized skills showcase; deployed on Vercel.

EDUCATION

Bachelor of Computer Applications (BCA)

Maharshi Dayanand University (MDU), Rohtak — Expected 2027

CERTIFICATIONS

- **AWS Solutions Architecture Job Simulation** — Forage, Jul 2025 (Credential ID: ntYZiGbNdKmAM6r)
- **Deloitte Cyber Job Simulation** — Forage, Jun 2025
- **Full Stack Development Vocational Training (60 hrs)** — Kreativan Technologies × St. Andrews Institute of Technology & Management, Apr 2025
- **Full Stack Development Vocational Training (40 hrs)** — Kreativan Technologies, Oct 2024
